2.4.4 REPORT OF E- TRAINING PROGRAMME

The requirements of National medical council are to ensure that medical faculty are involved in research and publishing their research on a consistent basis. Also, publications have become a prerequisite for faculty promotions as per NMC. Medical students are involved in research initiatives and faculty take up the role of guides to students in their research endeavours. Hence the need to sensitize the faculty on easy and freely available tools like Zotero

Zotero is a free, easy-to-use tool for managing references and creating bibliographies. It helps in collecting, organizing, citing, and sharing research sources.

In view of this the following training program was organized for the faculty of PES institute of medical sciences and research

"USE OF ZOTERO (REFERENCE MANAGEMENT TOOL)"

**Resource person: Dr. Ramaswamy
Prof & HOD
Dept of Pathology**

All the faculty actively participated

REPORT OF E- TRAINING PROGRAMME

Medical students are looking for novel methods of teaching delivery and are no longer kept engaged with the traditional teaching learning methods. CBME also emphasizes on different teaching learning methods aligned to the learning objectives and for effective delivery of the educational contents to the students.

In this view there is a need for faculty development program initiatives to train them on effective delivery modes. Use of educational videos using audio visual aids is one such mode of teaching students

The following training program was organized for the faculty of PES institute of medical sciences and research

“EDUCATIONAL VIDEOS AS A TEACHING LEARNING TOOL FOR STUDENTS “

Resource person: Dr. Pradeep S
Prof & HOD
Dept of OBG

All the faculty actively participated

REPORT OF E- TRAINING PROGRAMME

At PESSIMSR quality medical education is of vital significance. The institute caters to diverse number of E- books and E- journals. These resources widen the knowledge base of the faculty in providing information on recent and current trends in clinical practices. It gives an opportunity for faculty to keep themselves updated and disseminates the information gained to students also.

The following E training program was organised for the faculty of PES institute of medical sciences and research to sensitise and increase the awareness of the utility of these online resources

“SENTITISATION AND ACCESS TO E- BOOKS AND E- JOURNALS”

Resource person: Dr. Praveen Kumar BA
Professor
Dept of Community Medicine

All the faculty actively participated

REPORT OF E- TRAINING PROGRAMME

Faculty and students are in need of various tools to assist in their scientific writing and publications. All the postgraduates are to submit their dissertation/ these for being eligible to take their postgraduate exams. Grammarly is an effective writing assistant that improves writing, enhances clarity, correct grammar errors, spelling, punctuation and style. This improves the quality of the scientific writing and increases the chances of publication

Grammarly's premium version includes a plagiarism checker that compares text against a database of web pages and academic papers to ensure originality.

The following E training program was organised for the faculty of PES institute of medical sciences and research

"SENSITIZATION AND USE OF GRAMMARLY FACILITY"

Resource person: Dr. Kumar Guru B N
Professor
Dept of Pathology

REPORT OF E- TRAINING PROGRAMME

Academic search engines are online repositories or databases that hosts numerous research articles and allow users to find relevant scholarly articles, research publications, conference proceedings, and other academic resources.

There is a requirement of faculty have the ability to search for peer-reviewed papers, theses, books, abstracts and articles from academic publishers and professional societies.

Some of the well-known search engines are google scholar, pub med and research gate.

The following E training program was organised for the faculty of PES institute of medical sciences and research

"ACADEMIC SEARCH ENGINES AS AN EDUCATIONAL TOOL "

REPORT OF E- TRAINING PROGRAMME

Social media has become a powerful educational tool, offering unique opportunities for learning and engagement. It can be used effectively in educational contexts and has several benefits. There are various platforms like LinkedIn, YouTube that can be used for sharing educational videos, tutorials, lectures, sharing resources and professional networking.

Usage of which enhances digital literacy and digital communication. As an education tool it can be integrated with Curriculum, assign group projects, quizzes and live sessions to engage students.

The following E training program was organised for the faculty of PES institute of medical sciences and research

“EFFECTIVE USE OF SOCIAL MEDIA AS AN EDUCATIONAL TOOL “

REPORT OF E- TRAINING PROGRAMME

COVID-19 pandemic significantly impacted medical education with significant proportion of faculty caught unaware on how to deliver online teaching to students. This facilitated modifications and adaptations with innovations to implemented to ensure continuous delivery of medical education during COVID pandemic.

Faculty have to use virtual classrooms, Remote Clinical Rotations, develop E- resources and E-content and online assessment and evaluation process to engage the students

The need of the hour is to sensitise and facilitate faculty in using these resources in the pandemic.

The following E training program was organised for the faculty of PES institute of medical sciences and research

"DELIVERY OF TEACHING LEARNING METHODS AND EVALUATION DURING PANDEMIC"

REPORT OF E- TRAINING PROGRAMME

Interactive E resources are valuable tools to keep students engaged and motivated. These resources encompass a range of digital tools and platforms that facilitate active learning, critical thinking, and skill development. It can be used in interactive simulations, educational games and gamification platforms.

It facilitates personalised learning as well as real time collaboration and communication. With appropriate integration of these resources into the curriculum they become a valuable asset in medical training of students.

The following E training program was organised for the faculty of PES institute of medical sciences and research

“INTERACTIVE E- RESOURCES UTILITY AND APPLICATION”
